

Dutch Lion Motorbikes

Condor 1952 A580 580cc 2 cyl sv with dutch registration papers

Bouwjaar: 1952
Motorinhoud: 580 cc

Omschrijving:

The Schweizer Armee converted the BMWs used by German troops during World War II, so Condor got the job of designing a Swiss equivalent. Blueprinted in 1944, the A580 has telescopic forks, plunger-style rear suspension, hydraulic self-adjusting valve lifters and aluminum cylinder heads. It's clearly inspired by German flathead boxer models—such as the BMW R71, R6 or R12, and the Zündapp KS600. This 1952 Condor comes with dutch registration papers and the Condor has a fresh batterie and is in good running and riding condition. This Condor A580 has swiss army papers and runs and shifts very smooth and it is a pleasure to ride with a lot of power. Price 9450€
